

FONT50 *Wall-Mounted Bottle Filler*

The Font 50 is a wall mounted bottle filler that dispenses filtered mains water. It features a plastic bottle saving calculator. Every 500ml dispensed counts as saving a 1L plastic bottle. Easy to install secure wall bracket which allows for quick filter replacement. The Font 50 is ideal for educational institutions, gyms, hotels and more. Stainless steel covered waste drainage.

- Connects to the mains water supply.
- Features a plastic bottle savings counter. (Every 500ml dispensed counts as saving a 1L plastic bottle)
- Can be upgraded with optional mains water drainage.
- Superior dispense height of 38cm, ideal for filling sports bottles.
- Installing a carbon block filter removes the taste and smell of chlorine and impurities in the mains water, preventing them from entering the water trail.
- Made from high quality stainless steel, the Font 50 is suitable for indoor or covered outdoor installation.
- Supplied with everything you'd need for installation.

Features an integrated LED bottle counter which allows users to see how many plastic bottles the Font 50 has saved from landfill.

Code	Dimensions (mm) HxWxD	Dispense Height	Weight
